Your guide through BC’s post-secondary transfer system
PUBLIC INSTITUTES offer specialized programs and have a provincial mandate. Each of the three provincial institutes is unique in terms of the programs it offers, which may include trades, vocational, career, technical, and academic studies, including transfer pathways. Institutes offer a range of credentials, including certificates, diplomas, associate and baccalaureate degrees, and applied masters degrees.

PRIVATE AND OUT-OF-PROVINCE INSTITUTIONS authorized by the province to offer a degree program in BC may also participate in the BC Transfer System. These institutions may offer associate or baccalaureate degree programs with transfer pathways.

PUBLIC COLLEGES offer a wide range of programs throughout the province. Some prepare adult learners for further post-secondary studies, while others focus on trades, vocational, career, technical, and academic studies. Credential options include certificates, diplomas, associate and applied baccalaureate degrees. University transfer programs are designed to enable students to transfer into many baccalaureate degree programs at BC universities.

PUBLIC UNIVERSITIES offer diverse programs and credentials in cities and regional centres around the province. All offer four-year baccalaureate degrees and transfer pathways, and many offer trades, career/technical and professional programs. Regionally focused universities also offer certificate, diploma, and associate degree credentials as well as masters degrees in applied areas. Several research-intensive universities also offer a full range of graduate degree programs to the masters and doctoral level.

The BC Transfer System includes many different post-secondary institutions. Together they offer a wide range of flexible educational pathways for students seeking the programs that best suit their particular interests and goals.
BC TRANSFER SYSTEM

THE BC TRANSFER SYSTEM

In BC, post-secondary students benefit from the most comprehensive, well-established, flexible transfer network in Canada. The BC Transfer System involves all public post-secondary institutions and some that are private or out-of-province. This allows students to move from one institution to another and to get credit for previous coursework.

All BC Transfer System institutions “send” and “receive” transfer credit through an online “Transfer Credit System”. Their transfer agreements are listed on the BC Transfer Guide.

“Within Canada, BC leads as a jurisdiction for offering tightly integrated pathway programs... (and) international student pathways due to the long-established BC Transfer System facilitating transitions between colleges and universities.”

See bctransferguide.ca/system for information and links to institutions. (Only main campuses listed above.)
EXPLORE

At EducationPlannerBC.ca, you can explore over 2,500 programs offered at BC's public post-secondary institutions.

You can search by areas of study, location of campuses, or by credentials and then compare them with other institutions to help you make an informed decision about your education!

EducationPlannerBC.ca makes exploring post-secondary programs in BC easy. You can find out what you need to know about tuition fees, admission requirements, scholarship opportunities, and more—all on this one website!

PLAN

EducationPlannerBC.ca offers advice, information, and resources to help you plan your educational pathway.

What kind of career are you looking for?
Which programs are a good fit for you?
What are the admission requirements?
How much will it all cost?

EducationPlannerBC.ca can help you answer these questions and more as you proceed with your educational plan.
EducationPlannerBC.ca makes it easy for you to apply to multiple BC public post-secondary institutions with one personalized account. Plan, search and apply for post-secondary all in one place!

1. Create an EducationPlannerBC.ca account
2. Submit your application
3. Select institutions of choice across BC
4. Complete your profile

### COST OF EDUCATION IN BC

Tuition fees vary depending on the institution and program. At EducationPlannerBC.ca, you can explore program options and costs associated with studying in BC. Don’t forget to also look into financial aid and scholarship opportunities!

**Domestic Tuition Estimates**

- **College**: $2700 - $3400 per year
- **University**: $3900 - $7200 per year
- **Institutes**: $2600 - $5700 per year

**International Tuition Estimates**

- **College**: $9k - $21k per year
- **University**: $15k - $39k per year
- **Institutes**: $10k - $20k per year

*Domestic and international student tuition fee range estimates (CDN$) for public post-secondary institutions in each sector are generally based on a 4-year Arts degree program for 2018/19. The estimates do not include student fees, association fees, residences, books, supplies, and extracurriculars.

YOUR APPLICATION CHECKLIST

STEP 1
What's out there?
Use EducationPlannerBC.ca's search function to find/compare programs & institutions in BC.

STEP 2
Find application requirements for Institutions & programs
Each institution has their own general admission requirements. Different programs can have additional requirements.

STEP 3
Collect required documentation
Arrange for transcripts to be transferred & collect all necessary documentation (references, portfolio, etc.).

STEP 4
Look for financial aid opportunities
Take advantage of the various options for scholarships and financial aid.

STEP 5
Be mindful of deadlines.
Institutions and programs have their own application deadlines. Apply early!

SUBMIT APPLICATION & PAY FEES

PLANNING TO TRANSFER?
If you know what you want to study, and if you are hoping to transfer to a different institution in the future, it's never too early to check out BCTransferGuide.ca to see how your courses would transfer from one institution to another.

See the following pages for information about transferring within (and into) BC.
WHAT IS TRANSFER?

“Transfer” is what happens when one institution gives you credit for education you’ve completed at another institution.

If you get admitted to your new program, and if the courses you’ve taken are a good match, you can use the credits you’ve already earned to fulfill some of the requirements for your credential.

EARN CREDITS
Complete courses at one institution.

TRANSFER CREDITS
Complete courses at another institution.

COMPLETE YOUR POST-SECONDARY JOURNEY!

There are two main ways to enter post-secondary education in BC:

The Direct Route allows students to enter an institution directly from high school and complete their credential there.

The Transfer Route enables students to start at one institution, and then transfer to another, as they move towards completion of their studies.

DID YOU KNOW?

BC offers a variety of different pathway options (not just course-to-course). For example, students can earn credits for high school and post-secondary studies at the same time. Find out about “dual credit”* pathways at BCTransferGuide.ca

*For example, see dual credit options offered by Camosun College at https://www.camosun.ca/learn/south-island-partnership/
WHY TRANSFER?

Each year, thousands of BC students transfer between BC post-secondary institutions. There are many different reasons why. Sometimes, students are attracted to specific transfer pathway programs and smaller class sizes. Many students benefit by beginning studies closer to their home community, reducing tuition* and other living expenses. The transfer option can also improve access for students who may not have been able to enter post-secondary education directly from high school, or who require time away from their studies.

Research shows that students who leave post-secondary education mainly do so because of changing personal circumstances. Transfer options help make it possible for them to use their transfer credit from completed courses to continue along their post-secondary journey more efficiently when ready, saving both time and money.

Studies show that transfer students are:

- Very satisfied with their transfer experience
- Just as successful in their post-secondary studies as those who enter directly from high school.

55,000+ students move between BC public institutions every year.

45% of bachelor graduates attend more than one BC public post-secondary institution.

34% of annual enrolments at BC’s research universities are transfer students.

*See the "Apply" section for information regarding how tuition fees vary at BC post-secondary institutions.
HOW TRANSFER WORKS

Transfer is based on “course equivalency”. If your courses match the content of your new program, transfer credit is usually an option. However, if the programs are completely unrelated, you may be unable to transfer some credits.

At BCTransferGuide.ca you can:
- Find how courses and programs transfer in BC
- Learn the basics and benefits of transfer options
- Map out your own transfer pathway

BCTransferGuide.ca is the place to learn about your transfer options. At BCTransferGuide.ca, you can check out transfer agreements for courses you have completed (or plan to complete) to see how they transfer to another institution.

Transfer is based on “course equivalency”. If your courses match the content of your new program, transfer credit is usually an option. However, if the programs are completely unrelated, you may be unable to transfer some credits.

TRANSFER STORIES:
WHAT THE STUDENTS SAY ABOUT TRANSFER

“Having the ability to transfer straight from college to university in order to complete a degree allowed me to take that next step, and get into a job that actually feeds my passion and is more meaningful work and more financially sustainable for our family.”

“I found it really easy to use the [BC Transfer Guide] platform. For me, it laid out quite nicely all the options I had and I was able to take that data to make my own lists of what I needed to complete in order to reach my goals.”

“Without the Transfer Guide, it would be a guessing game... The benefit of transfer for students is the momentum to keep moving forward in their education.”

Check out our “Transfer Stories” videos. Just search for the “BCCAT” channel on YouTube.
TRANSFER TO BC

Students will only be granted transfer credit if they are admitted to the institution, and to a related program. Application for admission is competitive, and students should be in acceptable academic standing at their current or previous institution.

YOUR TRANSFER CHECKLIST

See bccat.ca/about/news for access to a range of related “Find Your Path” materials, including postcards, bookmarks, and a poster.

WHAT TO DO

WHAT TO EXPECT

FROM ANOTHER PROVINCE

Provide detailed course outlines if requested.

Transfer students normally have completed a full year (24-30 credits) of transferable courses.

FROM THE USA

Provide detailed course outlines if requested.

If the course or program is from an accredited degree granting institution in the United States, transfer credit is normally granted, provided the courses are similar to those in the program to which the student is applying.

FROM ANOTHER COUNTRY

Check with the institution you plan on transferring to.

Provide details of course outlines or evidence of transfer agreements.

Provide proof of English language proficiency if requested.

If you are from a non-English speaking country, you may be required to produce official translations of your transcripts.

*IMPORTANT NOTE: Credits are only transferred after a student has applied and gained admission to the new post-secondary institution.

Search BCTransferGuide.ca to see how your completed courses would transfer to the new program. (How much credit would the new institution give you?)

Don’t forget to take a look at other transfer options such as block transfer. Check out other pathway options listed under the “Transfer Search” menu on BCTransferGuide.ca.

Hang on to your course outlines! This is how institutions determine the transferability of a course or program. If you can’t find the relevant transfer information on BCTransferGuide.ca, you may need to produce your course outlines to the new institution for them to determine how much transfer credit to give you for your completed courses.

Request transfer credit when you move to another institution.*
