## **Executive Summary**

This report profiles several demographic and academic characteristics of new undergraduate students entering the University of Northern British Columbia from 1998-99 to 2002-03. First, findings are presented about students who transferred credit hours from a British Columbia college to UNBC, with some comparisons made to those who came from a BC high school. Secondly, some characteristics are profiled of all new undergraduate students who were admitted to UNBC in the fall semester for each of the 5 academic years. This includes those who transferred from a BC college, those who came from a BC high school, and those admitted on other bases.

On average, 23% more students from BC high schools registered at UNBC than students transferring credit hours from a BC college during 1998-99 to 2002-03.

The majority of UNBC's undergraduate transfer students came from Northern BC colleges. This group of students was different than those from BC colleges in other regions. They were more likely to be older and female, they had taken more college courses (transferred more credit hours), and were more likely to be a part-time student in a major offered by the College of Arts, Social and Health Sciences such as Social Work or General Arts. The admission Cumulative Grade Point Average (CGPA) of Northern BC transfer students was a good indicator of their academic performance – they maintained this level for their first 30 credit hours. In 100 level Math and English courses, this group achieved higher grades than students from BC colleges in other regions. Their grades in 200 and 300 level courses were similar to other transfer students' grades.

Students who came from a BC high school were in their late teens. They entered with a high academic standing from secondary school, but their initial UNBC grades fell below this level. Their CGPA recovered somewhat after they completed 30 credit hours. This pattern was the same for their UNBC English and Math course grades. Most high school entry students were full-time in their first semester at UNBC and more likely to take a major offered by the College of Science and Management.

During these 5 years, UNBC attracted most of its new undergraduate students from British Columbia educational institutions. By a slight majority, females outnumbered males. Younger students took more credit hours in their first semester compared to older students. New students showed a slight preference for majors offered by the College of Science and Management.

## Profile of BC College Transfer Students and Profile of New Students Admitted to the University of Northern British Columbia from 1998-99 to 2002-03

### **Part 1 Introduction**

This report profiles several demographic and academic characteristics of new undergraduate students entering the University of Northern British Columbia from 1998-99 to 2002-03.

Part 2 begins with definitions of categories and terms for British Columbia college transfer students. To apply for admission as a transfer student at UNBC, a minimum of 15 credit hours of acceptable course work must be presented. (Note: This section also includes 80 students, 5.1% of the total, who transferred less than 15 credit hours). Then findings are presented about these new undergraduate students who transferred credit hours from a BC college to UNBC for fall and winter semesters in each academic year. Several of their characteristics are profiled, such as the number of students who transferred, where they transferred from, number of credit hours transferred, their UNBC major, gender, age, and academic performance after transfer. Some comparisons are made between BC college transfer students and BC high school entry students.

Part 3 continues with a section defining, and then profiling all new undergraduate students who were admitted to UNBC in the fall semester for each of the 5 academic years. This includes those who transferred from a BC college, those who came from a BC high school, and those admitted on other bases.

The report ends with a series of tables and charts that display the results. Data was not available for a few students on some of their characteristics; therefore, totals shown on different tables are not consistent for each year. Due to low numbers of students, data on Cumulative Grade Point Averages at 60 credit hours and at graduation was not reported.

### **Part 2 Profile of BC College Transfer Students**

This section focuses on undergraduate students who transferred from a British Columbia college, with some comparisons to those who came from a British Columbia high school.

#### **2.1 Definitions**

As shown in the table below, the twelve colleges, five university colleges, and three specialized institutes represented in this section of the report were organized into regions by their location in British Columbia. Part 4.1 Tables and Charts displays results by region of British Columbia and by college.

<b>BC Regions and Colleges</b>	
<p><b>Northern BC</b>            College of New Caledonia            Northern Lights College            Northwest Community College</p> <p><b>Interior/ Kootenays</b>            College of the Rockies            Nicola Valley Institute of Technology            Okanagan University College            Selkirk College            University College of the Cariboo</p>	<p><b>Lower Mainland</b>            British Columbia Institute of Technology            Capilano College            Columbia College            Coquitlam College            Douglas College            Institute of Indigenous Government            Kwantlen University College            Langara College            University College of the Fraser Valley</p> <p><b>Vancouver Island</b>            Camosun College            Malaspina University-College            North Island College</p>

A BC college transfer student:

- Transferred 15 or more credit hours from a BC college, BC university college, or BC specialized institute;
- Was a new undergraduate transfer student; and
- Registered at UNBC for fall and/or winter term of that academic year.

A BC high school entry student was:

- Admitted on the basis of BC secondary school completion or was attending a BC high school when they registered at UNBC;
- A new undergraduate student; and
- Registered at UNBC for fall and/or winter term of that academic year.

CGPA (Cumulative Grade Point Average)

- Expresses academic performance as a numerical average for all courses taken to date.
- Was calculated by dividing the total number of grade points earned by the total number of credit hours taken.

Status

- Full-time status was assigned to a student who registered for 12 or more credit hours in that semester (or term).
- At UNBC, a typical student taking a full load of courses earns 15 credits per semester.

## 2.2 Number and Source of BC College Transfer Students

Table 1 and Charts 1A and 1B show that:

- In 4 of the past 5 years, there were more than 300 undergraduate students registered at UNBC who had been admitted on the basis of transfer from a BC college.
- From 1998-99 to 2002-03, a steadily increasing majority of BC college transfer students came from the College of New Caledonia.
- Over one-half (57.4%) of all BC college transfer students came from northern BC colleges.
- About one-quarter (24.7%) came from the Lower Mainland, with Douglas College, Kwantlen University College, and Langara College providing the greater proportion of these students.
- Another 11% of BC college transfer students came from the Interior/ Kootenays region, and 7% from Vancouver Island colleges.

- Each year, there were more students who came to UNBC from a BC high school (on average, 391 students per year) than the number that transferred from a BC college (on average, 317 students per year).

### 2.3 Transfer Credit Hours

The number of credit hours students transferred from a BC college was grouped into categories. Results in Table 2, Table 3, and Charts 2A to 2E indicate that:

- During the 5 years of this report, UNBC students who came from BC colleges transferred an average of 46 credit hours, which is equivalent to 3 full-load semesters.
- Those from Northern BC and Vancouver Island colleges transferred somewhat more credit hours (about 47) than those from BC colleges in the other two regions (about 44 credit hours).
- Almost one-quarter (22.4%) transferred more than 60 credit hours, equivalent to 2 or more years at UNBC. Nearly three-quarters (73.5%) transferred more than 30 credit hours, equivalent to 1 year.

### 2.4 First Semester Credit Hours

Results displayed in Table 4 and Charts 3A to 3E point out that:

- About one-third (32.5%) of transfer students registered for 12 to 14 credit hours of classes in their first semester at UNBC. Another 28.8% signed up for 15 to 17 credit hours.
- More than one-third (36.3%) of students from BC high schools took 12 to 14 credit hours in their first semester, with 42.1% taking 15 to 17 credit hours.
- Almost one-half (43.6%) of transfer students from Northern BC colleges took less than 12 credit hours in their first semester. This compares with 23.3% from the Lower Mainland, 30.4% from Interior/ Kootenays, and 21.8% from Vancouver Island colleges.

### 2.5 Status in First Semester

As noted earlier, full-time was defined as a student who took 12 or more credit hours. Table 5 and Chart 4 show:

- Nearly two-thirds (64.5%) of BC college transfer students attended full-time during their first semester at UNBC.
- In contrast, most (84.5%) BC high school entry students were full-time in their first semester.
- More transfer students from Northern BC colleges were part-time students (43.5%) than those from colleges in other regions of BC (21.8%, 23.1%, and 30.4%).

### 2.6 UNBC Faculty

Chart 5 and Table 6 indicate:

- Almost one-half (49.4%) of BC college transfer students registered in a program offered by the College of Science and Management (CSAM). Another 42.7% were enrolled in the College of Arts, Social and Health Sciences (CASHS). The remainder had not declared their major (or program) at the time of enrolment.
- BC high school entry students had the same pattern of program choice.
- Transfer students from regions beyond Northern BC preferred CSAM programs by a ratio of 2 to 1.

### 2.7 UNBC Major

Table 7 and Chart 6 display the majors (programs of study) chosen by BC college transfer students. The most popular majors were:

#1 Social Work (9.9%)	#6 Accounting (5.3%)
#2 General Arts (9.3%)	#7 Psychology (4.7%)
#3 Forestry (8.1%)	#8 Biology (4.3%)
#4 General Business (5.9%)	#9 History (4.0%)
#5 English (5.6%)	#10 Computer Science (3.7%)

The top three majors by region were:

#### **Northern BC**

- #1 Social Work (15.8%)
- #2 General Arts (10.4%)
- #3 Accounting (6.5%)

#### **Interior/ Kootenays**

- #1 Forestry (22.0%)
- #2 Natural Resources Management – Fish Wildlife (7.5%)
- #3 Biology (tied) (5.8%)
- #3 General Arts (tied) (5.8%)

#### **Lower Mainland**

- #1 General Arts (tied) (9.7%)
- #1 General Business (tied) (9.7%)
- #3 Computer Science (8.4%)

#### **Vancouver Island**

- #1 Forestry (10.9%)
- #2 Psychology (9.1%)
- #3 Biology (8.2%)

- Eleven percent (11.0%) of students who transferred from an Interior/ Kootenays college did not declare a major when they entered UNBC. Nine percent (9.0%) from Northern BC, 5.6% from Lower Mainland, and 1.8% from Vancouver Island colleges did not declare a major.

## **2.8 Gender**

Table 8 and Chart 7 show that:

- The majority (58.1%) of BC college transfer students were female.
- From Northern BC colleges, there was twice the number of females compared to males.
- Males outnumbered females from Lower Mainland and Interior/ Kootenays colleges.
- There was a slight majority (53.9%) of females among BC high school entry students.

## **2.9 Age**

Results shown on Table 9 and Charts 8A and 8B indicate that when students began attending UNBC:

- The average age of BC college transfer students was 25.6 years, with slightly more than one-half (52.0%) in the 20-24 year age group. Almost three-quarters (72.8%) of students from Lower Mainland colleges were in the 20-24 year age group.
- The average age of BC high school entry students was 18.6 years. Most (91.6%) were less than 20 years old when they began attending UNBC.
- A small group (7.4%) of BC college transfer students were 40 years of age or older when they started at UNBC.
- Students from Northern BC colleges were older than those from other regions.

## **2.10 Admission CGPA**

The CGPA (Cumulative Grade Point Average) for BC college transfer students was reported on a 4-point scale. In the case of students who came from a BC high school, their percentage grade was converted to a CGPA according to the categories on UNBC's 4-point scale. Findings from Table 10 show that:

- The mean admission CGPA that students transferred from BC colleges was 2.81 over the five year period, ranging from 2.74 to 2.87 on the 4 point scale.
- More than one-third (39.8%) were admitted with a CGPA of 2.80 or greater, 28.6% with 3.00 or greater, and 9.0% with 3.50 or greater.
- Each year, BC high school entry students' mean admission CGPA was 3.28 or greater, and always higher than that of BC college transfer students.

## **2.11 Academic Performance at UNBC**

Table 11 and Charts 9A to 9D show the academic performance of transfer and high school entry students at four points in their education: 1) on admission to UNBC; 2) after their first semester at UNBC; 3) after completing 15 credit hours at UNBC; and 4) after completing 30 credit hours.

Note: Data was not available for BC high school entry students in 2001-02 and 2002-03. Due to low numbers of students, data on CGPAs at 60 credit hours and at graduation was not reported.

- Students from Northern BC and Interior/ Kootenays colleges generally had higher admission CGPAs (2.92 and 2.91 mean over 5 years) than those from Lower Mainland and Vancouver Island colleges (2.55 and 2.70 mean over 5 years).
- As noted in the previous section, BC high school students entered UNBC with a higher CGPA than students who transferred from BC colleges.
- For BC college transfer students, there was an initial small drop in CGPA from admission to the end of the first semester – from 2.81 to 2.76. For BC high school entry students, there was a much greater drop in CGPA from the first to the second point in time – from 3.41 to 2.42.
- After completing 15 credit hours, CGPA increased for BC college transfer students. After completing 30 credit hours, they surpassed their admission CGPA.
- BC high school entry students' CGPA recovered somewhat after completing 30 credit hours at UNBC, but not to the level of their admission CGPA.

### 2.12 UNBC Mathematics Course Grades

Table 12 shows the academic performance of BC college and BC high school students in 100 level, 200 level, and 300 level UNBC mathematics courses. Results from less than 3 students were not reported.

- For most levels and most years, BC college transfer students out-performed BC high school entry students – their math grade was higher – even though BC high school entry students had higher admission CGPAs.

### 2.13 UNBC English Course Grades

Table 13 shows the academic performance in 100 level, 200 level, and 300 level UNBC English courses. Results from less than 3 students were not reported.

- As with math courses, for most levels and most years, BC college transfer students out-performed BC high school entry students – their English grade was higher – even though BC high school entry students had higher admission CGPAs.

## Part 3 Profile of New Undergraduate Students

This section focuses on new undergraduate students who were admitted to UNBC in the fall semester from 1998-99 to 2002-03. This includes those who transferred from a BC college, those who came from a BC high school, and those admitted on other bases.

### Part 3.1 Definitions

As shown in the table below, new undergraduate students were grouped into categories by admission category. Part 4.2 Tables and Charts displays results by admission category.

<b>Admission Categories</b>	
<b>British Columbia</b>	<b>Rest of Canada</b>
BC High School	Canadian High School
BC College	Canadian College
BC University	Canadian University
<b>International</b>	<b>Other</b>
International High School	Mature
International College	Special Entry
International University	Miscellaneous

### 3.2 Basis of Admission of New Undergraduate Students

For the fall semesters from 1998 to 2002, Table 14 indicates that:

- More than three-quarters (76.9%) of new undergraduate students were admitted from a British Columbia secondary or post-secondary institution. Forty-two percent were from a BC high school, another 31% were from a BC college, and 4% were from a BC university.
- Of the remaining one-quarter, about 15% were admitted on other status – mature, special entry, or miscellaneous. Almost 7% came from a high school, college or university in another part of Canada. Just over 1% came from an international educational institution.

### 3.3 Status in First Semester

Table 15 and Chart 10 show that:

- More than three-quarters (77.6%) of new undergraduate students from British Columbia took 12 or more credit hours (were full-time) in their first semester at UNBC.
- The pattern was similar for students from the rest of Canada.
- Just over one-half (56.4%) of international students were full-time in their first semester.
- The majority (82.6%) of students admitted in other categories, including mature students, were part-time.

### 3.4 UNBC Faculty

In Chart 11 and Table 16,

- One-half (51.2%) of students from British Columbia registered for a program in the College of Science and Management (CSAM). In comparison, two-thirds of students who came from the rest of Canada and international students (67.2% and 65.5% respectively) registered for a CSAM program.
- Twenty percent (20.1%) of students admitted in the other category had not declared a major.

### 3.5 UNBC Major

Table 17 and Chart 12 display the majors (programs of study) chosen by new undergraduate students. In the past 5 years, the most popular majors were:

#1 General Arts (11.6%)	#6 Social Work (5.2%)
#2 Computer Science (6.5%)	#7 Psychology (4.4%)
#3 Biology (6.2%)	#8 English (3.9%)
#4 Forestry (tied) (5.5%)	#9 General Science (3.5%)
#4 General Business (tied) (5.5%)	#10 NRM – Wildlife Fisheries (3.4%)

### 3.6 Gender

From the results shown in Table 18 and Chart 13:

- Females were a slight majority (55.3%) of new undergraduate students. This was similar for students admitted from British Columbia high schools, colleges, and universities.
- There was an even gender split (50.5% and 49.5%) for students admitted from the rest of Canada.
- In contrast, two-thirds (63.6%) of international students were male.

### 3.7 Age

The results in Chart 14 and Table 19 indicate that:

- The average age of new undergraduate students was 23.3 years.
- The youngest group was British Columbians at 21.9 years. The oldest was 29.8 years for those admitted in the other category.
- Almost one-half (47.1%) of new students were less than 20 years old when they started at UNBC. Those 40 years of age and older accounted for 5.5% of the total.

**PART 4.1**

**Profile of BC College Transfer Students**  
with some comparisons to BC High School Entry Students

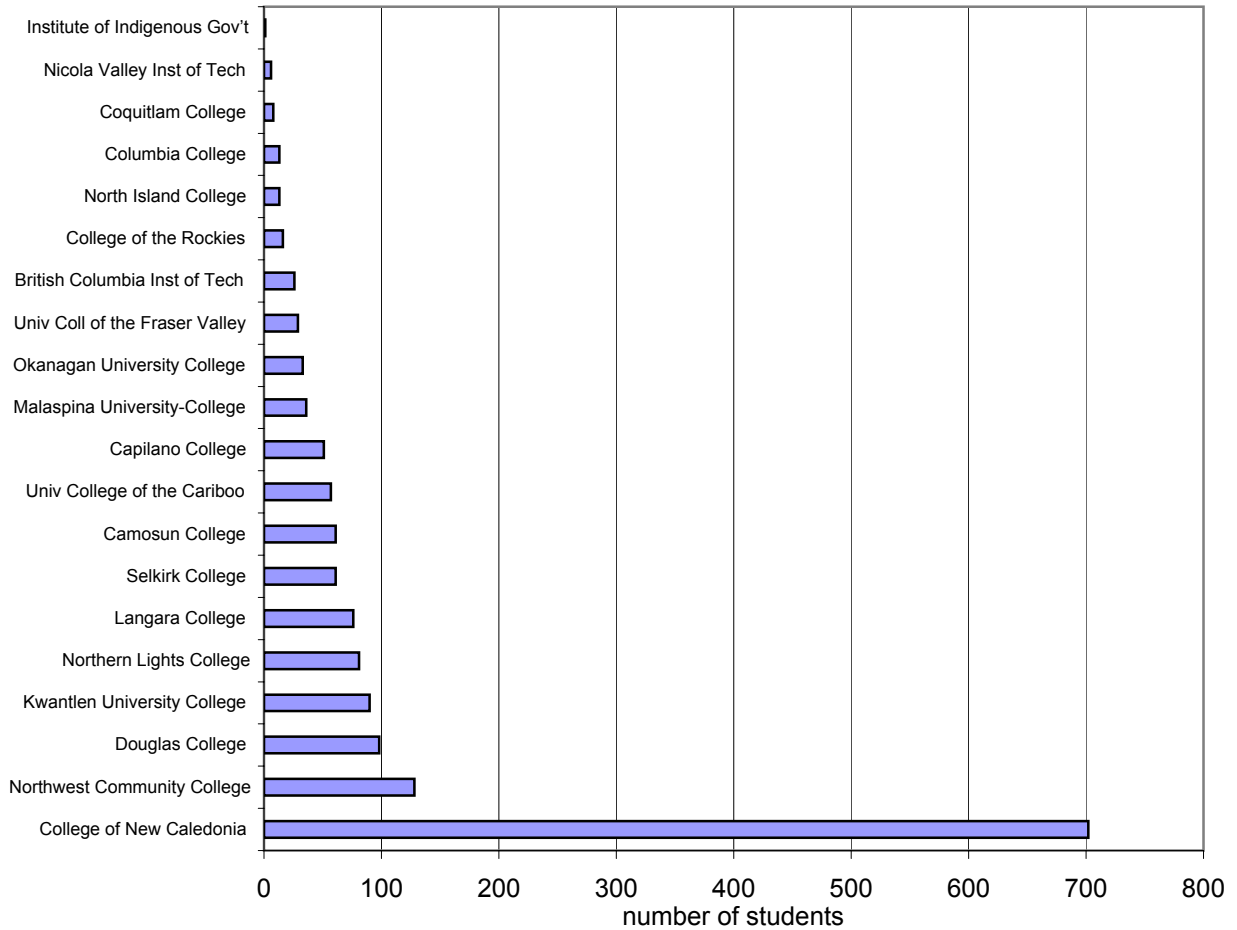

TABLES and CHARTS

Please note that throughout these tables, the number of students from a particular institution may be small and so while the data are accurate, the information may not be a reliable indicator for the institution.

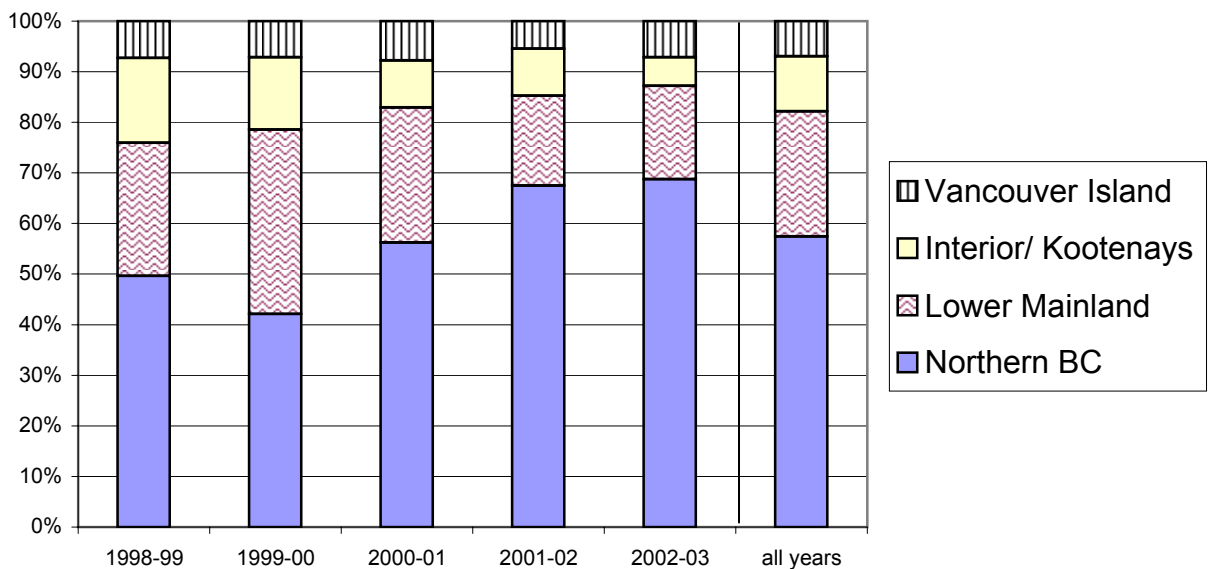

**Table 1**  
**Number and Source of BC College Transfer Students Admitted to UNBC**  
 compared to BC High School Entry Students

Region and College	1998-99		1999-00		2000-01		2001-02		2002-03		total	
<b>Northern BC</b>	<b>157</b>	<b>49.7%</b>	<b>118</b>	<b>42.1%</b>	<b>181</b>	<b>56.2%</b>	<b>224</b>	<b>67.5%</b>	<b>231</b>	<b>68.8%</b>	<b>911</b>	<b>57.4%</b>

### **Profile of New Undergraduate Students**

#### TABLES and CHARTS

Please note that throughout these tables, the number of students admitted in a specific category may be small and so while the data are accurate, the information may not be a reliable indicator for that type of admission.
