CONFERRAL OF AWARDS

~ Carol Pollock ~

TRANSFER AND ARTICULATION COMMUNITY
LEADERSHIP AWARD

~ Peter Wylie ~

LEADERSHIP AWARD

~ David Leeming ~

FRANKLIN GELIN LIFETIME ACHIEVEMENT AWARD

*(This award will be presented by
Franklin Gelin, Executive Director Emeritus, BCCAT.)*

CLOSING REMARKS

by Roger Barnsley

Carol Pollock

Professor of Teaching, and Director of First Year Biology, Dept. of Zoology, University of British Columbia - Vancouver

TRANSFER AND ARTICULATION COMMUNITY LEADERSHIP AWARD

“She has been the heart and soul (and memory) of Biology articulation for over 15 years and she retired this year. We are going to be at a loss as there is no way to replace what she brought to our community.”

- Blythe Nilson, Associate Professor, Biology, University of British Columbia - Okanagan

Peter Wylie

*Associate Professor, Economics
University of British Columbia - Okanagan*

LEADERSHIP AWARD

“Peter’s open and inclusive leadership style has helped to build a strong articulation committee. His approach has created a very constructive and friendly atmosphere. Committee members are inspired to contribute ideas and participate in proposals to improve the communication among the different institutions, the flow of information, and ultimately to optimize the transfer process for students in Economics courses and programs.”

- Yolina Denchev, Program Leader, Economics, Camosun College School of Business

David Leeming

Professor Emeritus, Mathematics and Education Coordinator/Liaison for BC and Alberta Colleges and Universities, Pacific Institute for the Mathematical Sciences, University of Victoria

FRANKLIN GELIN LIFETIME
ACHIEVEMENT AWARD

“David has been an anchor member of the BCcupms over the last 44 years. He is respected as a voice of reason and experience... David has always and continues to be an excellent ambassador for transfer and articulation within the mathematics community. His warmth, compassion and integrity inspire respect and remind us all that successful articulation is based on good relationships and a shared purpose.”*

- Susan Oesterle, Associate Dean, Faculty of Science & Technology, Douglas College, and System Liaison Person for BCcupms

“Among David’s strong qualities of leadership and engagement in articulation activities, his gift of rendering quiet encouragement to those with whom he works is especially noteworthy. In my various undertakings within the BCcupms, he has consistently been a solid supporter and a source of wise counsel.”

- Leo Neufeld, Former Chair, BCcupm and Camosun College Faculty Member, and winner of the 2014 Franklin Gelin Lifetime Achievement Award

* BC Committee on the Undergraduate Program in Mathematics and Statistics
